PROFILE

Media and entertainment professional with six years of experience across international film and television production, distribution, finance and strategy, supported by an M.S. in Applied Economics with a concentration in Entertainment Economics. Experienced coordinating projects across 14 countries, working across territory-specific distribution requirements, content data and partner-facing workflows, and supporting projects involving major broadcasters and streaming platforms.

PROFESSIONAL EXPERIENCE

Independent Media & Production Finance Consultant

June 2020 – Present

Global (Remote)

- Directed development, budgeting and market strategy for 20+ film and television projects across 14 countries, partnering with Arte, ZDF, PBS and WABC.
- Coordinated international film and television distribution workflows across multiple territories, supporting title research, partner requirements and territory-specific production and distribution materials.
- Built the financial models, territory-by-territory revenue forecasts and incentive-optimization analysis behind more than \$40M in film and TV projects.
- Pitched and defended production budgets to commissioning executives at BBC Film, Arte, ZDF, Apple, Warner Bros., ABC, NHK and Netflix; panelist at Cannes and Berlin.

University of Cincinnati

May 2023 – May 2026

Cincinnati, OH

Graduate Research Associate, Department of Economics

Aug 2025 – May 2026

- Modeled how EU regulatory frameworks are reshaping digital platforms and media markets using panel and time-series econometrics.
- Translated quantitative media-policy findings into briefs and presentations used by non-economist stakeholders.

Senior Research Associate & Analytics Team Lead, School of Public and International Affairs

May 2023 – Jul 2025

- Analyzed \$500M+ in ownership and financial records in Bloomberg Terminal and Excel to trace cross-border investment patterns and market trends.
- Led the analytics team investigating multinational tax structures and offshore ownership arrangements.

Genome Analyst, Content Intelligence

Jan 2021 – May 2021

Katch Data, San Francisco, CA

- Analyzed and classified U.S. film and television titles within Katch's content-intelligence database, maintaining title-level content data and identifying distribution patterns and audience behavior for media-client research engagements.

Research & Policy Consultant

2020 – 2021

Center for Regional Research & Sustainability Studies, Brussels, Belgium

- Tracked media, telecom and regulatory developments across Europe and the U.S. for institutional clients, authoring the research reports and strategic briefs behind their policy decisions.

SELECTED ANALYTICAL WORK (FULL SAMPLES ON PORTFOLIO SITE)

- U.S. Streaming Subscription Pricing, 2018–2026. 67 sourced price points across 8 services; CPI-deflated price trajectories, bundle economics and pricing-power analysis, delivered as a workbook and executive deck.
- Box Office Drivers, U.S. vs South Korea, 2020–2025. Regression analysis in R on budget, screen allocation and genre effects across a producer-driven and an exhibitor-driven film market.
